

JEENA J DAS

FULL STACK DEVELOPER (JAVA)

Trivandrum (Open to relocate) | jeenajee80@gmail.com | 8848468119 | Portfolio | linkedin | github

Objective

Aspiring **Java Full Stack Developer** with a strong foundation in Java, Spring Boot, RESTful APIs, and React. Eager to contribute to real-world software development while continuously learning. Passionate about building clean, scalable, and efficient backend systems and exploring full-stack solutions. Looking for an opportunity to apply my technical skills, problem-solving mindset, and enthusiasm for software engineering in a growth-oriented company.

Skills

Technical Skills:

- **Frontend** : React.js, Redux, JavaScript, HTML5, CSS3, Bootstrap, Tailwind CSS, Axios
- **Backend** : Java, Spring Boot, JSON, JWT, REST APIs, Hibernate (JPA), Maven
- **Database** : MySQL
- **Tools, IDEs** : Postman, VS Code, Spring Tool Suite, IntelliJ
- **Version Control**: Git, GitHub

Experience

Software Developer Intern - MashupStack

Aug 2024 - April 2025 - Kochi

- Designed and developed complete full-stack web applications using **Java, Spring Boot, and React.js**, integrating both frontend and backend seamlessly.
- Implemented secure authentication with **JWT**, dynamic routing, and RESTful API functionalities for scalable application architecture.
- Worked on UI/UX optimization using React.js, Tailwind CSS, and Bootstrap for responsive and user-friendly interfaces.
- Enhanced backend services with Spring Boot framework, integrating **Hibernate/JPA** with MySQL for efficient database operations.
- Collaborated in real-time code reviews and **GitHub** version control, ensuring high-quality code and following Agile development practices.

Projects

Online Bus Ticket Booking System

- Developed a full-stack web application for online bus ticket booking using **React.js** (frontend) and **Spring Boot** (backend).
- Implemented features such as bus search, seat selection, dynamic pricing, and secure **JWT-based authentication**.
- Enabled automated email confirmations and ticket downloads with embedded QR codes.
- Built an **Admin Dashboard** to manage buses, routes, bookings, and revenue reports with full CRUD operations.
- Tools & Technologies: Java, Spring Boot, React, MySQL, GitHub, Postman, Maven, JWT

Concert Booking System

- Developed backend services using **Java** and **Spring Boot** for managing concerts, users, and bookings.
- Created and optimized RESTful APIs for event listing, seat reservation, and user authentication.
- Integrated **MySQL** with **JPA/Hibernate** for efficient CRUD operations and database management.
- Applied **MVC architecture** to ensure clean separation of concerns and maintainable code.
- Tools & Technologies: Java, Spring Boot, MySQL, Postman, Git, Maven

Expense Tracker Application

- Built a fully responsive **React.js** frontend with modern, mobile-friendly UI and **reusable components**.
- Managed application state efficiently using React **hooks** and optimized rendering for performance.
- Integrated **Firebase** for real-time data storage and CRUD operations for transactions.
- Visualized spending patterns with **interactive charts** (Recharts/Chart.js) for category-wise insights.
- Tools & Technologies: React.js, Tailwind CSS, Firebase, Recharts/Chart.js, Git, GitHub

Certifications

Java Full Stack Development, Mashup Stack

Jul 2024-Mar 2025

SEO Certificate, Hubspot Academy

Education

- **Bsc in Computer Science** 2021 - 2024
Malankara Catholic College, Kaliyikavilai
- **Higher Secondary** 2018 - 2020
Govt.VHSS, kulathoor Trivandrum
